

# Journal of Risk and Insurance

## 2025 Editor Report

### Presented to the ARIA Board August 2025

The editorial office of the Journal of Risk and Insurance (JRI) has been housed in the HEC Montréal since January 2025. The team at the Wisconsin School of Business at the University of Wisconsin-Madison was responsible for the JRI from January 2019 to December 2024. Below, we offer our final annual report.

### Key Highlights

- 2024 was to be the last year of Joan Schmit (U. Wisconsin-Madison) as Editor-in-Chief of the Journal of Risk and Insurance. Martin Boyer (HEC Montréal) became the Editor-in-Chief in January 2025.
- In November 2024, Wiley started refusing papers that were initially submitted in pdf format. Despite many questions and complaints, Wiley has not gone back to accepting pdf papers.
- On April 1<sup>st</sup>, 2025, Wiley moved the Journal of Risk and Insurance from the Scholar One to the Research Exchange platforms. The move is not trivial.
- Journal ranking based on the two-year Impact Factor has gone down in 2024. This is not a good metric to use, though; Article Influence Score is a much better measure.

### 1. JRI Initiatives

The 2024 year saw the JRI follow its previously set course by encouraging dual submissions with the Risk Theory Society, investing in social media, recognizing distinguished reviewers, accepting prior reviews, and selecting the winner of the Mehr Award. Other initiatives are under way, provided the second half of the year is not as chaotic as the first with the change of editors and the change of platforms.

#### *Reviewer Recognition*

The JRI greatly benefits from the contributions of exceptional reviewers, several of whom are frequently invited to participate due to the insight and thoroughness of their feedback. This year, the editorial board has honored 6 individuals for their consistent delivery of timely, high-caliber reviews. We are grateful to all our reviewers for their role in advancing the profession, with recognition given to:

**Thomas Berry-Stolzle, Alex Braun, Hua Chen, Martin Eling, Anita Mukherjee, and Tao Sun.** It is most likely that this recognition will not continue given the paucity of the information that we are now receiving from the Research Exchange platform.

### *Mehr Award*

Each year, ARIA honors the author(s) of a *Journal of Risk and Insurance* (JRI) article with the **Robert I. Mehr Award**, recognizing the paper published a decade earlier that has had the most lasting impact. For the 2025 award, articles from 2015 (Volume 82 of the Journal) were evaluated.

The committee was chaired by George Zanjani, Senior Editor of the JRI until 2025, and Deputy Editor-in-Chief since. Incoming Senior Editors and incoming Editorial Board members were asked to examine the eligible papers and select the finalists. The selection of finalists was based on several key criteria, including:

- Citations (Web of Science & Google Scholar)
- The prestige of the journals that cited the papers
- Breadth of relevance
- Survey/review article versus new research
- Subjective assessment of contribution

All members of the editorial board who did not have a paper published in the volume under review, which included Martin Boyer, the incoming Editor-in-Chief, received a list of eligible articles. **An initial round of voting was conducted, which was used to identify seven final papers for consideration.** A virtual meeting was then held, during which the editorial team discussed each finalist, as well as any additional papers nominated by the group. Editors were encouraged to ask questions and share their perspectives. Following the discussion, each member was asked to rank their **rank ordering** from the list of finalists. **This process resulted in a clear preference** for the recipient of the 2025 Robert I. Mehr Award. A **third** round of voting was requested to make sure there were no remorse. The selection process yielded Martin F. Grace, J. Tyler Leverty, Richard D. Phillips, and Prakash Shimpi as recipients for their article “*The Value of Investing in Enterprise Risk Management*” Vol. 82, No. 2 (June 2015). We congratulate the authors. We would like to propose an honorable mention for Charles Nyce, Randy E. Dumm, G. Stacy Sirmans, Greg Smersh for their article “*The Capitalization of Insurance Premiums in House Prices*” Vol. 82, No. 4 (December 2015).

## 2.Submission and Publication Statistics

The Journal continues to have a strong and generally increasing flow of manuscripts, with 291 new manuscripts received during the 2024 calendar year (267 in 2023) and 160 new manuscripts (77 under Scholar One and 83 under RX) during the first six months of 2024 (187 in 2004).

Manuscript Type	Original	Revised	Rejected	Total
<b>Original Article</b>	<b>72</b>	<b>0</b>	<b>31</b>	<b>103</b>
<b>Original Article (Direct Via EEO)</b>	<b>219</b>	<b>66</b>	<b>28</b>	<b>313</b>
<b>Total</b>	<b>291</b>	<b>66</b>	<b>59</b>	<b>416</b>

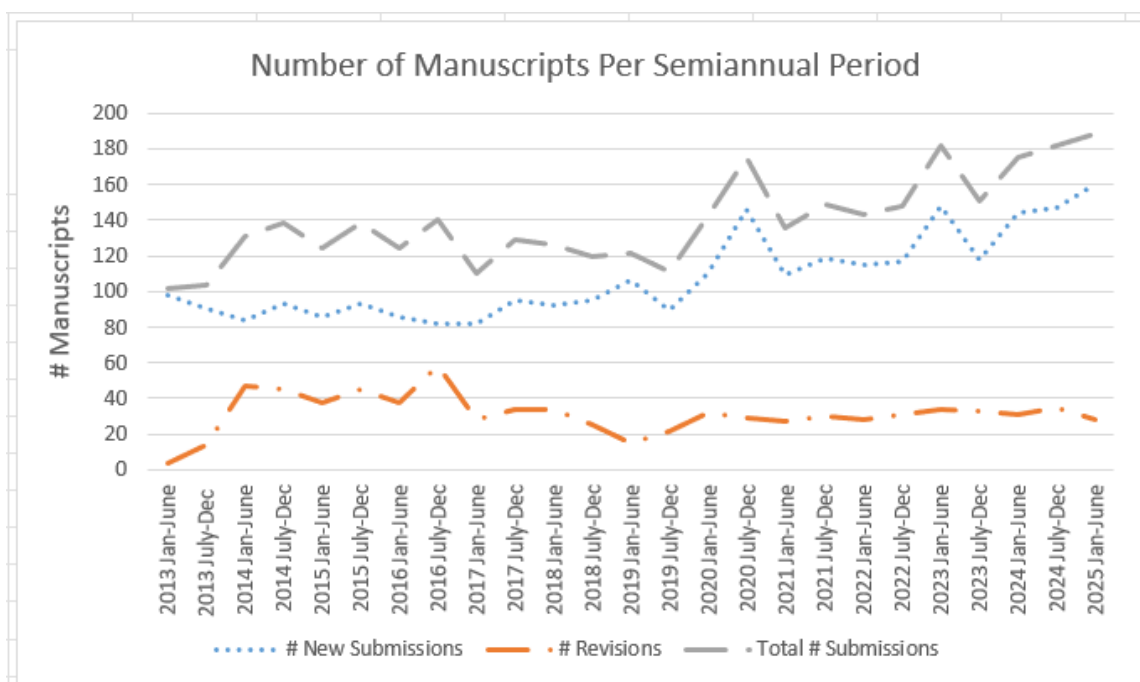

Information based on all manuscripts whose submission date is after January 1, 2025, in ScholarOne:

Manuscript Type	Original	Revised	Rejected	Total
<b>Original Article</b>	<b>71</b>	<b>1</b>	<b>5</b>	<b>77</b>
<b>Original Article (Direct Via EEO)</b>	<b>6</b>	<b>24</b>	<b>8</b>	<b>38</b>
<b>Total</b>	<b>77</b>	<b>25</b>	<b>13</b>	<b>115</b>

On April 1, 2025, a platform change from ScholarOne to Research Exchange was implemented. We have received 83 new submissions on the new platform and 2 revisions. On the old platform, we had received 77 original submissions in the first three months of the year and 25 revisions. Until further notice, all papers originally submitted on ScholarOne (except 2) will continue to be managed on the same platform.

Manuscript Type	Original	Revised	Rejected	Total
<b>Original Article evaluated</b>	<b>58</b>	<b>2</b>	<b>35</b>	<b>60</b>
<b>Original Article returned</b>	<b>25</b>			<b>25</b>
<b>Total</b>	<b>83</b>	<b>2</b>		<b>85</b>

Below is a visual of manuscript submissions and distributions in six-month intervals since JRI began using ScholarOne in January 2013.

Nine articles, although accepted for publication, are not yet included in the print edition as of July 1, 2025. The list of these articles can be found in Appendix A.

### Disposition of Original Manuscripts: January 1, 2013, to December 31, 2024

The disposition of original manuscripts is shown in the table below.

Period	Accept	Minor Revision	Major Revision	Reject with Review	Desk Reject	Total
January 1, 2013 to December 31, 2024	6	49	422	313	1695	2,485

The frequency of positive first decisions has tightened since 2013, with a leveling at approximately 19%. Since implementing ScholarOne in January 2013, Journal editorial offices have processed 2,485 new submissions. The Journal rejection rate since January 1, 2013, therefore, is slightly above 80% (lower bound). The figure on the next page shows the percent of new manuscripts with a positive first decision.

### Disposition of Original Manuscripts: from July 1, 2024, to December 31, 2024, and from January 1, 2025, to June 30, 2025

The disposition of original manuscripts is shown in the table below.

Six-month periods	Accept	Minor Revision	Major Revision	Reject with Review	Desk Reject	Under Review	Waiting & withdrawn	Total
<b>2024 (S-One)</b> July 1, 2024, to December 31, 2024	0	4	24	40	66		13	147
<b>2025 (S-One)</b> January 1, 2025, to June 30, 2025	0	2	13	40	14	?	8	77
<b>2025 (RX)</b> January 1, 2025, to June 30, 2025	0	1	1	5	30	23	25	58

### Time to First Decision: Original Manuscripts Submitted July 1, 2019, to December 31, 2024

	Accept	Minor Revision	Major Revision	Reject and Resubmit	Reject with Review	Reject with Referral	Reject without Review	Total
Number of Manuscripts	5	21	198	164	322	173	569	1,452
Percentage of Manuscripts	0	1	14	11	22	12	39	100
Average Day to Decision	79	75	88	50	63	54	8	42
Median Days to Decision	71	63	81	36	57	54	5	17

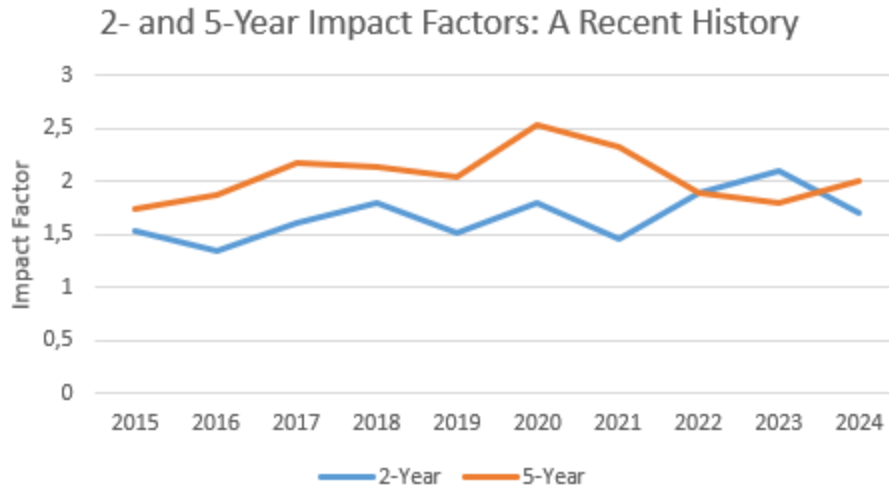

This information does not appear to be accessible via automated reports on the new Research Exchange platform.

### 3.Measuring the JRI's Influence

The impact factor, produced by the Journal Citation Reports of the Institute for Scientific Information, is often used to measure journal quality.

The 2024 two-year impact factor is calculated by dividing the number of citations in 2024 from Web of Science journals of articles published in the JRI in 2022 and 2023 by the total number of articles published in 2022 and 2023. The impact factor for 2024 is 1.7, down from the corresponding impact factor for 2023, which was 2.1. The five-year impact factor for 2024 is 2.0, slightly higher than the five-year impact factor for 2023, which was 1.8.

Recent history of the two- and five-year impact factors is included in the graph below.

We encourage all authors to place their papers on SSRN when submitting (or before submitting to) JRI. This will enhance the recognition of the authors’ papers and add to our citation reports.

We note as well that the JRI’s relative ranking has not improved. Last year the JRI was 93 out of 233 in Business and Finance. This year the JRI is 130 out of 241. Additionally, in 2023, the JRI was 200 out of 600 in Economics, and in 2024, the JRI is 260 out of 617. We consider these to be disappointing.

Below is the JRI’s relative ranking over the last three years.

	2022	2023	2024
<b>Rank in Business, Finance</b>	71/111	93/233	130/241
<b>Rank in Economics</b>	207/380	200/600	260/617

## Editorial team

A team of experienced editors and a talented editorial board took charge of managing the manuscripts received. Their commitment and the quality of their work have greatly contributed to raising the journal’s level of excellence.

## Original Manuscripts by Senior Editor: July 1, 2024, to June 30, 2025

Current Senior Editors rely on a group of Editorial Board members who serve as a first-access set of referees. The Editorial Board members represent a wide variety of fields, schools, and geographic regions, and are listed in Appendix B. The Board is joined by an active, diverse, and dedicated group of reviewers who provide critical service to the JRI. A substantial number of individuals contributed manuscript reviews between January 1, 2019, and June 30, 2024; their names are listed in Appendix C.

The following table displays the Senior Editors, the number of manuscripts they managed, and their percentage of manuscripts when combining all papers. Several individuals accepted our request to serve as “acting senior editor” for special purposes. The total differs from what is shown in the “time to decision” table because this table includes withdrawn papers and those still under review.

Editor Name	Accepted	Accept %	Rejected	Reject %	Decided
Bauer, Daniel	4	20.0%	16	80.0%	20
Bernard, Carole	0	0.0%	2	100.0%	2
<b>Boyer, M. Martin</b>	<b>5</b>	<b>11.1%</b>	<b>40</b>	<b>88.9%</b>	<b>45</b>
Eckles, David	0	0.0%	5	100.0%	5
Herring, Bradley	0	0.0%	2	100.0%	2
Leverly, Tyler	1	6,7 %	14	93,3 %	15
Niehaus, Greg	3	60.0%	2	40.0%	5
Peter, Richard	0	0.0%	2	100.0%	2
<b>Schmit, Joan</b>	<b>5</b>	<b>11.6%</b>	<b>38</b>	<b>88.4%</b>	<b>43</b>
Shi, Peng	0	0.0%	1	100.0%	1
Sydnor, Justin	4	40.0%	6	60.0%	10
Tennyson, Sharon	3	27.3%	8	72.7%	11
Zanjani, George	0	0.0%	7	100.0%	7
Ziebarth, Nicolas	2	16.7%	10	83.3%	12
d'Astous, Philippe	0	0,0 %	3	100,0 %	3
<b><u>Others</u></b>	<b>0</b>	<b>0.0%</b>	<b>27</b>	<b>100.0%</b>	<b>27</b>
<b>Summary</b>	<b>27</b>	<b>12.9%</b>	<b>183</b>	<b>87.1%</b>	<b>210</b>

## Conclusion

The Journal faces many challenges going forward. Its impact factor has been improving for the past ten years, but its ranking relative to other economics and finance journals is not improving, quite the contrary. For the health of our field and the advancement of the career of ARIA members, we need to improve the Journal's ranking. Ranking is not the rejection rate. Ranking based on Impact Factor is misleading, as it can be manipulated. The only metric that makes sense is the ranking that is based on the Article Influence Score... and this requires papers published in the JRI to be cited in top journals. Making the JRI more relevant in the eyes of our journal peers is the **number one strategic challenge** that we are facing.

The tactical challenge is to convince contributors on risk and insurance economics (in the wider sense of the words) to think about the Journal of Risk and Insurance as the premier field journal when it comes to insurance. At this time, it appears that it takes 4 to 8 years for papers to go from being presented at an ARIA meeting to being submitted and accepted in the Journal. This is too long. Can we reduce referee time? Hardly. Can we reduce the number of rounds, perhaps. Can we **convince our regular collaborators to submit to the JRI faster**? That is the million-dollar question.

With respect to operational challenges, **the transition to Wiley Research Exchange (RX) platform is proving very difficult**. We were able to have so much more information through the Scholar One platform that is simply not collected in RX.

The Journal will survive, and possibly thrive under RX, but we need to be aware that *annual reports will not have the same level of details* as what the ARIA board got accustomed to in the past six to twelve years.

Submitted by

Martin Boyer, Editor-in-Chief
